Webinar Presented by Attorney David Dobin

Maximizing cash flow and ensuring efficient operations is crucial to the success of every business, and every business owner inevitably faces the question of what to do when a customer, client or contractor fails to pay or fails to perform its contractual obligations. This seminar will introduce the basic concepts of liability enforcement, and provide information, strategies and tips for using the legal system to recover what's owed to your business, including recommended contract provisions, informal attempts to resolve disputes, lawsuits, judgments, and settlements.
